BENEFITS

Outstanding deliverability

Our solid relationships with major ISPs ensure high email deliverability. Your sensitive communications get in your subscribers' inboxes quickly.

Affordable integrated marketing solution

We offer affordable packages, personalized training, and live, person-to-person customer care by phone, email and chat.

Exceptional technical support

Our HDI-Certified Support Team offers you the highest level of service along the way.

Solutions Tailored for Your Needs

Our hosted, flexible and scalable solutions are tailored to meet your requirements.

Complete customization

For organizations that put their image first, we offer private IP addresses, a custom 'From' address, virtual mail server, and preference settings so your emails look like they are sent from, and managed by your organization.

Easy integration with your applications

We offer built-in database and CRM integration for Salesforce, SAP, MS Dynamics CRM, Oracle, and others.

Dedicated email servers

For organizations seeking a high performance server for sending out large volumes of email, our fully-managed dedicated servers provide excellent security, reliability, and customization.

Strategic Offerings to Maximize Results

Our team can serve as an extension of your marketing department, saving you time and resources.

Design & Consulting Services

We understand that a successful email marketing campaign is different for every organization, which is why our experienced creative, consulting, account and support teams will work directly with you to boost your email marketing performance.

Email Campaign Deployment Services

We handle the necessary steps to get your email marketing campaigns delivered to your intended recipients. You collect your subscribers' email addresses and design your campaign's creative. Then send both to our Email Campaign Specialists and you are done.
