Dedicated Email Marketing Servers

Maximize email campaign performance

AT A GLANCE

Net Atlantic offers beginners to highly advanced marketers and IT professionals high-performance dedicated email marketing servers. Both small and large volume email marketers will receive the ultimate in performance, delivery, privacy, and customization.

Three feature sets to choose from are: Professional Edition, Enterprise Edition, and StrongMail On-Demand Edition.

BENEFITS

In addition to getting an entire server allocated to your email list hosting needs, our managed dedicated servers include:

100% Server Management
Server maintenance is handled by our highly qualified experienced team. You simply choose the bandwidth, memory, and the storage space for your sending needs.

Nightly Security Updates
Nightly security updates are monitored for performance during and after these updates by our technical support staff.

Total Privacy
Exclusive, private IP addresses and VPNs ensure that you receive the highest degree of privacy that meets your company's specific needs.

State-of-the-art Datacenters
Redundant power, tier-4 data centers, SAS 70 Type II Certification, 24x7x365 on-site management and guarding, multi-layered security systems, closed circuit television surveillance, and more.

Get Full Control Over Your Email Marketing

The managed dedicated servers offered under our platform put you in control of your data.

- Configure virtually all server settings based on your email marketing needs.
- Integrate with CRM systems, databases and other back-end applications via ODBC and Open API.
- Deploy large volumes of emails quickly. With message speeds to up to 10,000,000 messages per hour, your emails get delivered fast.
- Scale upward over time without changing systems (up to 70,000,000 messages included per month).
- Serve content to millions of email addresses at one time, and grow your database without changing systems.
- Authenticate multiple domains for more effective email campaign delivery with DomainKeys Identified Mail (DKIM).
- Manage and group IT assets hierarchically for granular access control.
- Access archived data when you need it.

Expert Management, Security and Privacy

With 13 years of experience running dedicated email mailing list servers, Net Atlantic is one of the most capable hosts anywhere in the world. Net Atlantic's Dedicated Email Servers provide you with the security, scalability, and flexibility to manage your email campaigns and optimize business growth.

Being a completely U.S. based company, Net Atlantic recruits and hires only from within the United States. Your IT team is made up of only Net Atlantic employees. Your servers are never managed by subcontractors, and no data is ever stored overseas.
