- Super-Dependable Network Uptime - 99.5+%
- Tier 4 World Class Data Centers
- All Dell Web Hosting Servers
- Ultimate Redundancy Architecture
- US-based Technical Support by Phone, Email, and Live Chat

cPanel (Included in All Linux Hosting)

cPanel is a full-featured, web-based control panel that allows you to manage your web site through a web interface. This easy-to-use tool gives you the ability to manage all aspects of email accounts, backup, FTP, CGI scripts, web site statistics, and much more.

cPanel hosting includes (no additional cost):

- Domain management
- Domain aliases, subdomains
- Email pop account management
- Webmail interface
- Web site management
- Custom error (404) pages
- CRON, SSH, MIME types
- Advanced security features
- Statistics and traffic reports
- MySQL, PHP, PERL, CGI
- And more.

Fantastico (Included In All Linux Hosting)

Fantastico is an advanced control panel tool that makes installing and using popular web site components easy. With a few clicks of your mouse, your web site will be transformed into an interactive, dynamic Internet resource.

Fantastico Scripts Include (no additional cost):

- Wikis & Blogs
- Content management systems
- Forums and discussion boards
- E-commerce
- Guestbooks
- Image galleries
- Customer support-type ticket tracking systems
- Project management system
- Web site builders
